

RESCUE PEGS FS1, Part # 11-2001

INSTALLATION AND USE INSTRUCTIONS

Install:

1. Remove the two 12mm hex nuts from the bottom of the Rescue Peg
2. Remove the flat washers and the flat steel retaining plate
3. With the Rescue Peg tilted up at an angle, place it on your motorcycle footpeg with the threaded hooks facing down and hooked over the outer part of your footpeg; the steel rod welded to the bottom back of the Rescue Peg should rest against the bottom of your bike's footpeg
4. Place the steel retaining plate, flat washers, and 12mm nuts over the threaded hooks
5. Tighten the 12mm nuts until the Rescue Peg is parallel to your bike's footpeg or until the retaining plate contacts the bottom of your footpeg (note: the retaining plate may not tighten completely against your bike's footpeg depending on the shape and size of your footpeg, but the nylon locking nuts should stay on and keep the Rescue Peg in place)

Uninstall:

1. Remove the two 12mm hex nuts from the bottom of the Rescue Peg
2. Remove the flat washers and the flat steel retaining plate
3. Tilt the Rescue Peg up slightly and slide it off your bike's footpeg
4. Place the retaining plate, washers, and nuts back on the Rescue Peg for next time
5. Place your Rescue Pegs in the enclosed drawstring bag for safe keeping

Use:

- Always use Rescue Pegs in a safe, controlled manner
- Do not ride fast, jump, or perform stunts or dangerous activities with Rescue Pegs installed or when carrying a passenger
- Always use caution when starting, stopping, cornering, placing your feet on the ground, paddling with your feet, etc. when Rescue Pegs are installed
- Always use Rescue Pegs with the retaining plate, washers, and nuts installed
- Do not kickstart your bike with Rescue Pegs installed; kick starting your bike with Rescue Pegs installed may place extreme force on the kickstart-side Peg and may result in damage to the Rescue Peg and will void your warranty; always start your bike before installing the Rescue Peg on the kickstart side
- Rider and passenger must always wear proper full protective riding gear and safety equipment when riding with Rescue Pegs

PAC BLUE CONCEPTS, LLC.

LIMITED WARRANTY

What Does This Warranty Cover?

This warranty covers any defects in materials or workmanship of your Rescue Pegs.

How Long Does The Warranty Coverage Last?

This warranty lasts as long as you own your Rescue Pegs. The warranty terminates if you sell or otherwise transfer ownership of your Rescue Pegs.

What Will Pac Blue Concepts, LLC. Do?

Pac Blue Concepts, LLC. will replace the Rescue Pegs set at no charge, including outbound shipping.

What Does This Warranty Not Cover?

Shipping charges to return damaged or defective parts is not covered. Labor to install or uninstall Rescue Pegs is not covered. Damage caused by Rescue Pegs to other bike parts or personal equipment is not covered. Also, consequential and incidental damages are not recoverable under this warranty. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation may not apply.
